

Cedric COMPAGNON

SENIOR PRODUCT MANAGER

PROFILE

Passionate about all aspects of a digital product, empathetic with users to represent at better their needs, versatile to communicate and work effectively with different trades, persuasive and convincing to support proposals with other stakeholders. I pass on my passion for the product through videoconferences and courses. Appreciating the productive processes and being convinced that the human must remain at the center of our concerns, I got married to the Agile mindset as well as to SaaS Products.

WORK EXPERIENCE

F 24
